

# GEOINT WORKFLOWS WITH SOCET GXP® SOFTWARE BROWN BAG LUNCH

Thursday, August 13, 2009

Two sessions: 11 a.m. to noon | noon to 1 p.m.

DIA Conference Center

For additional information, please contact:

Jim Youker, 571 299 8446

Learn how to use SOCET GXP's automated functionality, access to shared databases, and interoperability to create and manage geospatial information effectively. The briefings present an overview of emerging technologies, SOCET GXP capabilities, and insight into using SOCET GXP with other geospatial tools.

Demonstrations include:

- Connecting to Google Earth™ and the ESRI® geodatabases to create, store, and share geographic information
- Creating 3-D models and interactive flythroughs
- Generating accurate products quickly with the Ortho On-the-Fly™ tool
- Publishing to FalconView™ using the new SOCET GXP v3.1 RPF Generator
- Enterprise solutions, Web services, cloud computing

Don't forget to bring your own lunch.  
Light refreshments will be served.
