BAE SYSTEMS NAMES TERESA HONG, MANAGER FOR ASIA-PACIFIC RIM GEOSPATIAL EXPLOITATION CUSTOMER SUPPORT

SAN DIEGO – BAE Systems has announced the appointment of Teresa Hong to the position of customer support manager, Asia-Pacific Rim, representing the company's Geospatial eXploitation Products (GXP) line of business. In this newly created position, Hong will report to Rob Coorey, director of sales and marketing, Asia-Pacific Rim and will be responsible for managing the technical support function for SOCET SET and SOCET GXP™ software in the region.

In announcing the appointment, Dan London, vice president of GXP sales and marketing for BAE Systems said, "Teresa brings a broad and valuable background to this position. She is well known and respected in the Asia-Pacific Rim region, is fluent in several languages, and is familiar with our customer base and with SOCET SET®, which will allow her to hit the ground running."

Hong has worked extensively in the GIS industry as a digital photogrammetry engineer, systems administrator, support engineer, computer technician and geomatic engineer. She holds a bachelor's degree in geomatic engineering from the University of New South Wales, Australia, and is currently enrolled in the MBA program at Edinburgh Business School in Scotland. She is also active in the Institution of Engineers as well as the Association of Professional Engineers, Scientists, and Managers in Australia.

BAE Systems Geospatial eXploitation Products (GXP) is the developer and supplier of SOCET SET® and SOCET GXP software as well as other innovative solutions widely used by commercial, defense and intelligence customers for mapping, photogrammetry, geospatial analysis and image analysis. GXP operates in numerous locations worldwide.

About BAE SYSTEMS:

BAE Systems is an international company engaged in the development, delivery and support of advanced defense and aerospace systems in the air, on land, at sea and in space.

More...
